MIAG’s mission is to support economic growth, reduce poverty, and improve people’s lives. In order to achieve this, the Agency needs a clear understanding of the development outcomes of the projects it supports. MIAG’s Development Effectiveness Indicator System (DEIS) collects a common set of indicators from clients to demonstrate results across all projects: volume of investment catalyzed, direct employment, taxes paid, and value of locally procured goods. It also measures sector-specific indicators.

MIAG’s $3.2 billion issuance in fiscal year 2014 is expected to catalyze an additional $2.6 billion in public and private co-investment.

Here are highlights of the development results expected from projects supported by MIAG guarantees signed in fiscal year 2014:
